QUALIFICATION

High school senior (Class of 2027) with a 3.897 unweighted GPA and a demonstrated passion for artificial intelligence, machine learning, computer science, and applied mathematics.

Published researcher with two peer-reviewed machine learning publications, AI/software intern, and selective university research program participant. Combines strong academics, technical research, leadership, and community service to address meaningful challenges in healthcare, education, and scientific discovery.

EDUCATION

Frisco High School Frisco, TX

High School Diploma Expected Graduation: 2027

- ❖ High School GPA: 3.9 unweighted (3.897 reported)
- ❖ AP Scholar with Distinction; National Recognition Program Awardee; National Honors recognition
- ❖ Relevant AP Courses: AP Computer Science A, AP Computer Science Principles, AP Calculus AB & BC, AP Statistics, AP Physics 1, AP Physics C Mechanics, AP Physics C Electricity & Magnetism, AP Precalculus, AP Seminar, AP Psychology, AP US History, AP World History, AP Human Geography, AP Government, AP Economics, AP English Language, AP English Literature

UT Austin – High School Research Academy (UT HSRA) Austin, TX

Computational Materials Science Program: Summer 2026 - June 8th to July 15th

- ❖ Selected to develop better materials for fuel cells and batteries through university-level computational research.
- ❖ Learned how atoms interact, the physics and math behind neutral atoms found in nature, bonds, new mathematical concepts, using VIM to code in python to perform simulations, using VASP to perform more complex simulations.
- ❖ Expanded on this knowledge by researching and improving the haptic device, a machine that allows you to feel or simulate the forces of other atoms on the one you're controlling, and used git and github as the workflow.

UT Austin – Academy for Data Science Research Austin, TX

Researcher: Summer 2026 - July 27th to August 7th

- ❖ Engaged in data science research under university mentorship.

UT Dallas – Quantum Computing Workshop Richardson, TX

Participant: Summer 2026 - June 9th to July 31

- ❖ Attended specialized training in quantum computing concepts and applications.
- ❖ Understood how Qubits, Quantum Gates, Quantum Physics, and new math concepts play a huge role in Quantum computing.
- ❖ During training, there are limitations and how hardware is a huge problem, especially when it comes to the isolation of particles and reducing the environmental influences on these particles.
- ❖ Utilized Python (Google Colab) to run quantum tests and quantum algorithms.

RESEARCH

Journal of Computer Science and Technology Studies International

Published Researcher: 2025 – 2026

- ❖ Published peer-reviewed paper: "Comparing Vision Transformers and Convolutional Neural Networks: A Systematic Analysis." (Published date: January 28th)
 - Compared the effectiveness and accuracy of CNNs and ViTs in various datasets containing different types of images and compared their performances.
- ❖ Published peer-reviewed paper: "Stress-Level Classification for Students with Recommendation Outputs." (Published date: April 15th)
 - Based on students habits and their workload, we can predict the amount of stress they are feeling and give recommendations or habits on how to reduce their stress

ACM Research – ChemoCraft Project Frisco, TX

Research Contributor: 2025 – 2026

- ❖ Performed image data cleansing targeting noise and image imputations; converted DWI scans to DTI scans for oncology research applications.

PROFESSIONAL EXPERIENCE

Asklena AI Remote

AI / Software Engineering Intern: 4+ months, 2025 – 2026

- ❖ Developed AI and software solutions involving machine learning models and data-driven systems for real-world applications.
- ❖ Gained hands-on experience deploying and optimizing AI pipelines in a professional startup environment.
- ❖ Helped in projects like developing an AI assessment that is used to help businesses as they grow and can help them make decisions and understand where they need to grow and in which departments.
- ❖ AI assessment is already being used in many different businesses

EXTRACURRICULAR

Competitions & Honors:

- ❖ High Honors – Lumiere Scholars Essay Award
- ❖ UT Dallas Battle of the Brains Hackathon Spring 2026 (1st Place)
- ❖ UT Dallas Battle of the Brains Hackathon Fall 2024 (5th Place)
- ❖ AMC 12; DECA; Kaggle Hackathons; LeetCode Contests

AI Club Frisco, TX

Leadership Role: Ongoing

- ❖ Held leadership position driving AI-focused initiatives, workshops, and collaborative projects for club members.
- ❖ Had weekly meeting/sessions where we talked about different AI and machine learning concepts

Computer Science Club Frisco, TX

Leadership Role: Ongoing

- ❖ Led activities promoting competitive programming, software development, and CS education among peers.
- ❖ Honors: Battle of the brains 1st place (2026); Battle of the brains 5th place (2024); UIL Computer Science Regional Qualifier;

School Volunteer Club Frisco, TX

President: Ongoing

- ❖ Organized and led volunteer initiatives benefiting the school and local Frisco community.
- ❖ City of Frisco Volunteer (1 year); American Red Cross Volunteer Member (3 years).
- ❖ Took my role as a volunteer at the Red Cross and expanded it to my school as there would be other students that would be looking for volunteer opportunities.

Certifications:

- ❖ MIT – Autonomous Cognitive Assistant & Quantum Software
- ❖ Stanford University Machine Learning Specialization - Understood fundamental machine learning concepts and algorithms (Gradient descent, linear and non-linear fitting, neural networks, classification, multi class classification, and much more).
- ❖ ITS Java Certification (Certiport) - understood fundamental Java concepts.
- ❖ PCEP & PCAP (Python) - Learned beginner to advanced level python programming.

ATHLETICS

City of Plano Swimmers Plano, TX

Competitive Swimmer: Ongoing

- ❖ Competed as a member of the City of Plano Swimmers swim team.

COMMUNITY SERVICE

American Red Cross Frisco, TX*Volunteer Member: 3 Years*

- ❖ Contributed consistently to Red Cross volunteer programs supporting community health and disaster preparedness initiatives.

City of Frisco Frisco, TX*Community Volunteer: 1 Year*

- ❖ Participated in city-sponsored volunteer programs promoting civic engagement and community improvement.
- ❖ Engaged myself in the Frisco festival of colors where I helped support a Frisco Holi event by managing the boxes and supplies as well as picking up trash as the event was going on and at the end.

SKILLS, ACTIVITIES, & INTERESTS

Technical Skills: Python, Java, HTML, CSS, jQuery, XML, JSON, TypeScript, Flask; AI/ML frameworks: PyTorch, Keras, TensorFlow, Scikit-learn, Numpy, Seaborn, Matplotlib; Models: GPT-3, Claude, BERT, Open LLM; Deep Learning: MLP, LSTM, Bi-directional LSTM, Convolutional LSTM, CNN; ML: Random Forest, SVM, KNN, Logistic Regression; MS Excel, MS PowerPoint, MS Word, AWS

Music: Royal Conservatory of Music (RCM) Flute Certification – Levels 1–6; participated in school bands

Interests: Artificial Intelligence, Competitive Programming, Mathematics, Data Science, Healthcare Innovation
